My worry: I think GWB has already  
proposed public length on Iran -  
and will not go to Congress.

[Patrick Foy, April 26, 07: Most Dems are only  
trying to get political mileage out of Bush's  
mess in Iraq, for 2008: not to end it.

(How much self-deception is going on? Oh yes?  
Pelosi must bend to such forces, to some extent.  
"How will X offset votes in '08?"

[I don't want to wait for the smoking gun  
that exposes US nuclear policy to be a  
nuclear cloud.]

If there is an attack on Iran or another  
9-11: not if the result is regional war + dictatorship  
Dem / Congress will have done nothing  
to avert it of it.

It is doing nothing now, to prevent next  
move to a police state

or the blueprint of a full police state  
or to avert an attack on Iran

To Henth: If John. Fallon is dead - set  
against attacking Iran, under any foreseeable  
circumstances (told to Col. Patrick Kenny)

Why did he tell the police?

Why was a admiral given it?

Does he think

Why did he give it to him?

GP predicts: If ordered "out of the bubble," to  
attack, Fallon would resign and go  
public. "causing national upheaval,  
transferring habitats.

an attack would do so by itself...

(Thinks Lebanon was undoubtedly any scenario - not US fees..

What if: CDS = Mohammed

see from - Lebanon: I had him Marine Lt. ordered to surrender.

OBL calls 9-11-76 (to get attack on Iran)
